11. Time Deliveries

A major constraint in timely delivery of valves has been attributed to the delays in receipt of Castings from foundries. With our own foundry, having Cupola of 5 Tones Capacity, we are not in a position to meet our own delivery commitments, but also able to cater at times, to client's critical requirements, by rescheduling the pouring programme.

Power Supply

With Generators installed at all Units, the menace of erratic power has been adequately tackled.

In House Testing Facilities

Complete In-House testing facilities like Tensile Testing UTM of 10 Tones capacity, Hardness Testing, Chemical Analysis, Mercurous Nitrate Testing, D.P. Testing, Hydrostatic Testing & Pneumatic Testing are available.

TO WHOM IT MAY CONCERN

We would bring to your attention that until March 31, 1985 we have been marketing "KILBURN" Cast Iron Valves, manufactured by Messrs H Sarker & Company

Effective April 1, 1985 we arrived at a policy decision to concentrate our marketing efforts on selected products. We have decided to discontinue the marketing of "KILBURN" Cast Iron Valves, except for cases where it is necessary to offer such valves on a turnkey basis along with our other products. Under the circumstances we have permitted Messrs H Sarker & Company to continue to market the Cast Iron Valves on their own brand names.

Dear Sir,

This has reference to your letter No. HS/NTPC/ENL/SG/3/2K1, dated 07/02/2001 addressed to AGM (QA&I), regarding registration for subject items. As per our system existing in Corporate Centre, supplier of such items are termed as Sub-Contractor (vendors). It may be noted that NTPC Corporate Quality Assurance Department does not have a system of registration of Sub-Contractor. A Sub-Contractor is considered for approval based on the recommendations of the Main-Contractor for a specific package, project and contract keeping in view of the duty conditions and the system where item is to be used. Therefore, it is essential that the request be made for a specific application / package / contract and is reviewed / assessed by the Main-Contractor and forwarded with his recommendations. Your proposal for procurement for above items be considered only after the same is forwarded as above.

However, we are thankful to you showing interest in our Organization.
